ANIMAL CONTROL

One of the most difficult challenges for the town’s Animal Control Officer is to return missing dogs to their rightful owners if they are not wearing their tags or have not been licensed. All East Haddam canine owners are reminded that dogs are to be licensed during the month of June. Failing to do so may impose a fine up to $92. Please remember to license them and to not allow them to roam.

As a reminder to residents, the Animal Control Officer handles issues relating to dogs only. All other animals such as raccoons, opossums, skunks, coyotes, bats etc. are handled through the State of Connecticut Department of Energy and Environmental Protection at (860) 424-3011.

Please remember, if you have any questions, feel free to call 860-873-5044.

BOARD OF ASSESSMENT APPEALS

The Board of Assessment Appeals held one hearing on September 22, 2012 for the purpose of motor vehicle appeals. There were seven appeals heard resulting in the Board reducing the assessments on all seven vehicles due to high mileage. The Board’s adjustments totaled a reduction of $19,430 to the grand list.

In March of 2013 the Board received 52 applications for appeal. There were 50 real property appeals and two personal property appeals. The Board conducted three public hearings on March 2, 9 and 21, 2013. Five appeal applications were withdrawn prior to the hearings and two applicants did not show. Following the hearings with taxpayers, the Board met six additional times including several on-site inspections. Meetings were also held with the Assessor, First Selectman and Vision Appraisal prior to making decisions. Of the 45 applications for appeal the Board reduced assessments on 39 for a total a reduction of $931,730 to the grand list.

The Board found that when working with the new revaluation system provided by Vision Appraisal, it was no longer possible to manually make adjustments to either land or dwelling values; resulting in Assessor Loreta Zdanys having to make the adjustments through the computer system.

BOARD OF FINANCE

The function of the Board of Finance is to consider the town’s finances from an overall viewpoint. The Connecticut general statutes give the Board specific responsibility for:

- Preparing the town budget.
- Setting the property tax rate.
- Approving deficiency and special appropriations and transfers between appropriations.
- Determining how town financial records are to be kept.
- Arranging for an annual audit of the town accounts.
- Publishing the annual report.

The Board of Finance works closely with the Boards of Education and Selectmen with regard to the town’s finances. For fiscal year 2012-2013 the following initiatives were implemented:

- The town and Board of Education contracted with a health benefits consultant resulting in substantial savings with regard to the town’s health insurance costs.
- For the second year a “Citizen’s Guide to the Budget” was mailed to every household. The Guide was prepared in coordination with the Boards of Education, Finance and Selectmen and provided detailed information on the budget process, budget terminology, how the mill rate is calculated and the proposed budget expenditures and revenues.

The 2013-2014 budget process was very challenging. The budget failed the first time at referendum and passed at second referendum. The Board of Finance encourages residents to participate in the budget process. Key budget dates for 2014-2015 are listed below. The Boards of Education, Selectmen and Finance hold several meetings to review the budget requests during January, February and March, please check the town’s website www.easthaddam.org during these months for meeting dates, locations and times.

The Board of Finance will continue to oversee the town’s financial management in a fiscally responsible manner.

Respectfully submitted,
Susan Carluccio Link
Chairman
As I reflect back on the past six years as your First Selectman there is great pride in our dedicated town employees, volunteers and volunteer boards and commission members. They all have stepped up during one of the most challenging economic times in United States history. Their efforts have enabled us to keep spending down, improve services, expand open space and enhance the quality of life for each of us.

Years of financial discipline has poured a strong foundation for us to continue to weather the tough economic times and to position us for the future. To provide a vision for the future and to continue to build on that strong foundation, in 2010 I recommended and the Board of Selectmen agreed and formed the Financial Needs Roundtable Committee to identify a ten year capital plan. The Committee completed its work in 2012 and as a result we have a vision for the town’s future to include: consolidating municipal offices with handicap access; addressing public safety issues to provided for adequate space for emergency services as well as repairs to the Moodus Firehouse and essential code upgrades/renovations to the elementary school.

East Haddam contracted with O&G Industries to act as the program manager with the responsibility of analyzing the projects and to advise the town on the most cost efficient and cost effective options to address these needs.

We continued to hold our expenses flat, for example the 2013-2014 approved budget is just over $200,000 more than the 2008-2009 budget. We continue to meet ever increasing challenges of declining revenues and increased costs for health insurance, fuel and contracted employee wages by reinventing how we do business.

The following is a list of amazing accomplishments by the town and Board of Education employees, our boards and commissions and volunteers!

**Shared Services:** The Boards of Selectmen, Finance and Education jointly embarked on a shared services initiative in the areas of finance, technology and facilities management and operations. This consolidated effort gives oversight to all town and Board of Education buildings, finances and technology. We have already realized cost savings, eliminated redundancies and are making the best use of the town’s resources.

**Public Safety:** The town has hired its’ first two full-time police officers with no financial impact to the town (savings was realized by reducing to one resident state trooper from two). The composition of the East Haddam police services now includes one resident state trooper, two full-time officers and four part-time officers. We are pleased to strengthen our police coverage to our citizens.

**Town Library System:** At Town Meeting in June the East Haddam Unified Library System was approved which blends the East Haddam Free and Rathbun Free Memorial Libraries a real benefit to our citizens. The library staff are now town employees and the library expenditures and revenues are processed through the town.

**Regional Initiatives:** East Haddam, along with 16 other towns (Chester, Clinton, Cromwell, Deep River, Durham, East Hampton, Essex, Haddam, Killingworth, Lyme, Middlefield, Middletown, Old Lyme, Old Saybrook, Portland and Westbrook) formed the Lower Connecticut River Valley Council of Governments (RiverCOG) giving us a stronger voice in State and Federal funding and regional planning. The formation of the RiverCOG included the merger of two regional planning agencies (Midstate Regional Planning Agency and Connecticut River Estuary Metropolitan Planning Organization—a merger that is believed to be one of if not the first in the United States).

**Animal Control:** The town of East Haddam has created a regional animal control facility. East Hampton is utilizing our facility for an annual fee. We are negotiating to open up to other towns in the near future with a goal of continuing to improve the services offered to our residents while reducing the cost to East Haddam’s taxpayers.

We aggressively pursue grants to move the town forward. At the close of fiscal year 2013 we have been awarded nearly one million dollars in grants to include—rehabilitation of the East Haddam village sewer treatment plant, historic improvements to the Town and Grange Halls, the development of an agricultural business center located at the old Harris farm off of Mt. Parnassus, fencing for the Harris property, transient dockage for boaters on the Connecticut River and Federal Emergency Management Administration grant monies for funds for Storm Sandy and the February blizzard.

**Citizen Access:** Technology plays a great role in how we provide services to our citizens—you can now sign up and pay for Park and Recreation activities online, the Town Clerk has launched on-line access and payment for land records and we continue to move forward with electronic access to town building and land use records.

We completed our state mandated Grand List revaluation. Our Grand List has dropped by an average of 15% from the previous year another indicator of the challenging economic times which was reflected in the mill rate for the 2013-2014 budget.

The Selectmen would like to thank this year’s Volunteers of the Month for all they do for our community. The following people were named as volunteer of the month recipients for 2012-2013: Bryan Perry, Lenore McLean, Barbara Boynton, Jane Lewis, Jeffrey Savitsky, Zachary Bogue, Robin Zachariiewicz, Allan “Scot” Mackinnon, Kristen Wicander, Ashley Havican and Michael Parker.

I am proud to be your First Selectman!

Mark B. Walter
BUILDING DEPARTMENT

The East Haddam Building Department has seen 64% reduction in new home construction. There has been a surge in residential standby generator systems. The department has been busy with real estate transactions whereas work done without permits are now being permitted and inspected, as mortgage lenders want open permits to be closed out.

During fiscal year 2012-2013 the following Building Department permits were issued and fees collected:

COMMISSION ON AGING

2012-2013 was a very productive year. The members reviewed all the policies.
Jo Golec looked into accreditation for the Senior Center. She obtained a manual that described all the standards. The members studied them. John Blaschik was given the standards to review. He and the Commission on Aging agreed that it could be used as a guideline, but it wasn’t necessary to be accredited. It was too costly.
The age of seniors was lowered from 65 to 50 years old to encourage more usage of the center.
A new stove was purchased to replace the old one that gave us trouble. Also two exercise machines were purchased, because after being examined they were found to be past their useful lifetime and were dangerous.
A program called Yellow Dot, sponsored by People’s Bank, was presented to the seniors at the June Senior Club meeting. Nearly 40 people attended. This program is beneficial for the safety of our seniors while they are driving should they have an accident or a health problem.
Joanne Roczniak is retiring as soon as a new director is in place.
The commission is looking forward to another year serving our seniors.

Rosalie Hoffman
Secretary

CONSERVATION COMMISSION

The Conservation Commission experienced several changes in Commissioners this year. Chair Cynthia Matthew resigned, Claire Maeder chose not to re-apply and Thomas (TJ) Tarbox also resigned. The Commission wishes to thank these individuals for their hard work over the past few years. Ms. Maeder designed the very popular East Haddam Trail Guide. Mr. Tarbox was the long time steward of the Commissions’ properties. Paul Sienna and Marilyn Gleeson have joined the Commission.

Building on the foundation established by former Chair Cynthia Matthew, the Conservation Commission has embarked on an aggressive stewardship program. During the next year, the Stewardship/Forestry Subcommittee plans on posting road-side signage identifying all significant town-owned open space properties. Additionally, within the next twelve months the Commission expects to establish several miles of hiking and multi-use trails. Prior to creating a trail on a specific property, the boundaries of that property will be clearly marked. The Commission is working with the Eightmile River Wild and Scenic Committee to create a ten-plus mile long linear trail. This trail will start in East Haddam on the Eightmile River and traverse through dedicated open space properties all the way to Darrow Pond in East Lyme. The Subcommittee will also evaluate one or two properties for the appropriate forestry management activity.

Over 500 trail guides have been dispensed. The Commission’s goal is to update the guide on a yearly basis. As new properties and/or trails are added to the town's open space, they will also be posted up on the Commission’s website link.

The Commission intends on creating management plans for its larger parcels. Examples of other plans have been reviewed. The long term goal is to have a management plan for every open space parcel that the Commission manages.

The Commission continues to work with the Ray Chapter of FFA on the management and trail system of the Nichols Property. The Commission and Agriculture Commission will continue the integrated management of the Harris Property and will explore other open space parcels where there is the potential for agricultural activities. The Commission will maintain its committed partnership with the East Haddam Land Trust, Lyme Land Conservation Trust and other organizations with similar conservation goals (e.g. Connecticut Forest and Park Association).

Besides striving to have all Commission seats filled, the Commission is actively recruiting volunteers to assist in maintaining its many properties. To address this need, a sub-committee has been formed to address volunteer recruitment. The goal is to create more active Commissioners and volunteer workers and property stewards.

East Haddam Ambulance Association (EHAA) responded to 565 of 592 requests for service between June 1, 2012 and May 31, 2013, resulting in a mutual aid rate of 5% for the yearly reporting period—a 1% increase over the mutual aid rate of 2011-2012. The increase was attributable to personnel injuries and changed work schedules of several volunteers during the first half of the reporting period. For the most recent six months, the mutual aid rate declined to 1%. Over the reporting period 7% of transports required a single paid staff member, and 1% transports were entirely staffed by paid personnel. Volunteer schedule coverage was 83.4%, consistent with the past three years.

EHAA provided EMS support to emergency management operations during tropical storm Sandy and responded to all calls dispatched in East Haddam during the weekend of the February blizzard.

EHAA added two technicians and four others completed EMT recertification during the yearly reporting period. The organization provided standby coverage at numerous public events, and offered five public CPR/AED courses and two first aid courses over the 2012-2013 reporting period.

All technicians completed state and sponsor hospital mandatory annual training requirements, including CPR/AED, blood borne pathogen and infection control, hazardous materials, privacy practices (HIPAA), and Middlesex Hospital BLS protocols. An emergency vehicle operations workshop has been added to annual training, and a firefighter rehabilitation protocol has been published.

The organization’s newest ambulance, 15-4-B, has performed well, with no significant problems. EHAA’s older rig, 15-4-A, experienced several mechanical problems which have cost over $13,000 in one year and taken the vehicle out of service for over 30 days during the previous year. EHAA has now begun the process of procuring a replacement for this vehicle. This replacement will be the first to utilize town funding under the terms of the 2009 incentive agreement.

Delivery of a new first response vehicle was taken in January, 2013.

EHAA has contracted to procure a Stryker Powerload system for each ambulance. This system provides electro-hydraulic lifting of the patient and stretcher into the ambulance, minimizing opportunities for personnel or patient injury. The first system was installed in 15-4-B in May, 2013.

Patient care reporting software was upgraded, and the organization has actively supported the planning for the development of a town wide radio system to improve emergency services communications. It has also been actively engaged with, and provided input to, the Municipal Facilities Building Advisory Group.

On behalf of the Board of Education, district administration, staff, and students, it is my pleasure to present the Annual School District report for 2012-2013. This document serves as an overview of the many areas of growth as well as the major programs and services that we provide for our students and families.

There has been a fundamental shift in the expectation that people of Connecticut have for their public school system. While previously they expected us to give every child a chance to learn what they need to know in order to lead decent and productive lives, the people now expect us to guarantee that every child will learn these things.

To that end, The East Haddam District Improvement Plan reflects a strategic framework that aligns district, school, and program-based goals and priorities with a defined focus: College and Career Readiness for all students. Efforts to ensure fidelity of implementation, coherence, and sustainability include:

- On-going, cyclical examination of progress pertaining to targeted goals at every level – district, school, classroom – and flexibility to make appropriate adjustments as validated by indicators of success
- Deliberate analysis to make the strategic plan central to annual budget development with allocation of resources based on high-leverage impact
- Interdependence among district and school improvement priorities including focused professional development
- Technology infrastructure, hardware, and software to support instructional and operational needs across the district

While there are many successes that contribute to continual academic and social growth for all students, we are particularly proud of the following initiatives that were implemented during the 2012-2013 school year:

- All Day Kindergarten for all students
- Expansion of the district breakfast program to include all schools
- Partnership with the Middlesex YMCA that provides extended day opportunities for elementary students
- Shared services between the District and Town Offices that improve functionality and efficiency, and reduces costs to the community

We are grateful to the East Haddam Board of Education and the extended East Haddam Community for their continued support as we strive to meet the academic, social, emotional, and physical needs of our students.

I hope that you find this Annual Report to be both enlightening and enjoyable. Additional school district information can be accessed via our website: www.easthaddamschools.org.

Sincerely,
Mary Beth Iacobelli
Superintendent of Schools

East Haddam Youth & Family Services, Inc. is a private, non-profit agency that provides a full range of prevention, intervention, social service, community organization, positive youth development and advocacy services for youth and families in East Haddam. Services are funded by several sources including municipal funds, state and regional grants, private donations, State Department of Education and the Middlesex United Way.

The agency supports two part-time positions, contracted bookkeeping and accounting services and three full-time positions, one of which is funded by and dedicated to the Drug Free Communities grant which we were awarded last year. This grant funds the work of the East Haddam Local Prevention Council which our agency oversees. Drug and alcohol counseling is provided through a contractual arrangement between EHYFS and the Rushford Center. EHYFS provides services throughout the entire community at no cost to those being served so that no one is refused services because of inability to pay.

East Haddam 2012-2013 Annual Report
ECONOMIC DEVELOPMENT COMMISSION

The East Haddam Economic Development Commission (EDC) continued to promote economic development by encouraging growth consistent with East Haddam’s historic character, quality of life, and natural environment. In his second year as Economic Development Coordinator, Peter Simmons continued to work with the EDC and First Selectman on key business and development projects, including the first Town Business Incentive Tax Credit project.

EVENTS

In March, eight East Haddam restaurants/organizations participated in the tenth annual Chowder Cook-off. Proceeds were donated to: Eagle Scout Grange Sign Project, Music on the River, Food Bank, Moodus Sportsmen’s Club, Operation Fuel, St. Stephen’s Harvest House, Ray of Light Farm and Sensations Charitable Foundation. Following a year of preparation, EDC members coordinated the successful “Swing Bridge Centennial,” a regional celebration held on June 15, 2013, featuring an antique car Historic Bridge Crossing, 100th Anniversary Commemoration Ceremony, and community activities on both sides of the Connecticut River. Bunting decorated the Swing Bridge from June through fall. EDC worked with the Agricultural Commission to promote the weekly Farmers’ Market held June to October.

OTHER

The Coordinator assisted several businesses in obtaining financial resources, permitting, and commercial properties. The Coordinator managed two state grants for capital improvements at the Harris Farm, and assisted in preparing a CT Humanities grant for funding live theater on summer weekends at Gillette Castle State Park. The EDC coordinated communication between town businesses and the town regarding the planned reconstruction of the two Norwich Road bridges in East Haddam Village.

East Haddam’s economic interests were represented at the regular meetings of the Central Regional Tourism District. East Haddam’s on-line business directory, calendar, tourism brochures, and roadside sign boards were regularly updated. New businesses were announced in East Haddam Events magazine. Ads promoting the town were purchased in various publications. The EDC continued its membership in CT Economic Development Association (CEDAS). In November and April, mailings were sent to all business (250+) to keep owners apprised of economic opportunities. An email newsletter delivery service was used on several occasions to communicate more urgent notifications. EDC has an opening for one Alternate Commission member. Business owners and the public are invited to contact EDC members with ideas and questions or attend a monthly meeting on the first Thursday of the month.

East Haddam’s Emergency Management group is responsible for preparing the town to respond to a large scale emergency and disaster. The group is made up of members from all of the first responder agencies, town officials and volunteers with expertise in specific areas. We meet regularly to work towards ensuring East Haddam is prepared for any emergency we may face.

In October 2012, East Haddam Emergency Management was faced with preparing the town for super Storm Sandy. Parts of East Haddam were hit hard by Storm Sandy and some residents faced days without power. Through lessons learned from Tropical Storm Irene a year earlier, East Haddam was well prepared. The Emergency Management group, Emergency Management volunteers, Citizen Emergency Response Team (CERT) members, community groups and local businesses came together and provided services to residents in need of assistance.

For several days following Sandy, volunteers staffed the Nathan Hale-Ray High School, Senior Center and other locations providing residents a location to get food and water, a place to shower or to charge electronics. Through a partnership with the State Department of Emergency Management we were able to supply residents with bottled water and Meals Ready to Eat (MRE’s). The schools food service company assisted in providing hot meals for several days.

As in the past, the Public Safety Groups, East Haddam Public Works Department, the East Haddam Board of Education employees and the East Haddam town employees all went above and beyond to help residents needing assistance during and after the storm.

In 2012-2013 East Haddam Emergency Management trained an additional 30 volunteers to become certified CERT members. Many of our volunteers attended training classes on how to assist residents with functional and special needs during an emergency, Red Cross Shelter Management and electrical safety training taught by CL & P.

In 2012 East Haddam Emergency Management formed a radio sub-committee to address the need for improved emergency responder communications. East Haddam is an extremely large town with difficult terrain for designing a radio system. East Haddam has hired a consultant to help us though the process of evaluating our current system, reviewing the needs of all the public safety groups and assisting in a new system design. This will be a multiphase/multiyear project.

Emergency Management continues to recruit volunteers. Should you be interested please contact us at 860-873-5103 or email to ehaddamemgmgt@easthaddam.org. For up to date information related to East Haddam Emergency Management, please check the town website (www.easthaddam.org), join our East Haddam Emergency Management Facebook page or subscribe to our Twitter feed.

INLAND WETLANDS AND WATERCOURSES COMMISSION

MISSION/AUTHORITY

The East Haddam Inland Wetlands and Watercourses Commission was established by Town Meeting and applicable ordinance on June 20, 1974. It is charged by State Statute (CGS Section 22a-36 through 45) and such ordinance to preserve and protect the town’s wetlands and watercourses from random, unnecessary, undesirable and unregulated uses, disturbance or destruction, the protection of which is in the public interest and essential to health, welfare and safety.

Our wetlands and watercourses are essential to a safe and adequate water supply; to hydrological stability and control of flooding and erosion; to the recharging and purification of ground water; and to the existence of many forms of animal, aquatic and plant life.

LEVEL OF ACTIVITY/ACTIONS TAKEN

The numbers of subdivision reviews completed and permit applications accepted were lower than in previous years. It is presumed that the down turn in activity is largely tied to the down turn in the economy and the apparent stagnation in the housing market. This slowing of activity has given the Commission time to focus on regulation updates, to bring us in line with state statute changes, and allowed us to consider changes requested by the Eight Mile River Wild and Scenic Coordinating Committee that would establish stream crossing standards/guidelines.

Actions taken by the Commission in fiscal year 2012-2013, include:

EAST HADDAM LIBRARY SYSTEM

EAST HADDAM FREE PUBLIC LIBRARY

The East Haddam Free Public Library (EHFPL) has been proudly serving East Haddam since 1888, and 2012–2013 proved to be one of the most eventful years in the library’s history. The library hosted more programs than ever before, continued modernizing its collection, worked with over two dozen local organizations and businesses, and focused on obtaining in-demand items like DVDs, audiobooks, and bestselling books. EHFPL is committed to providing East Haddam Citizens with the most up-to-date technology and innovative programming, as well as traditional library services. The goal of the library is to become a center for the community and the best resource for free learning and entertainment for all members of the family.

RATHBUN FREE MEMORIAL LIBRARY

The Rathbun Free Memorial Library has been proudly serving East Haddam since 1935, and 2012–13 proved to be one of the most eventful years in the library’s history. The library continued to host its traditional programs including 3 weekly story hours, summer reading, and art exhibitions in addition to new programs including Science Club, eBook Tutorials, and 1-on-1 Technology help. The Library’s participation in the LION Consortium continued to provide patrons with access to thousands of materials, including e-books and digital audio books for e-readers, PCs, and mobile devices. The Rathbun is committed to providing East Haddam Citizens with original programming and convenient online access to library offerings as well as traditional library services. The goal of the library is to become a center for the community and the best resource for free learning and entertainment for all members of the family.

2012-2013 was a truly historic year for both Libraries and the town. On June 20, 2013, an ordinance was proposed at a Town Meeting to create an East Haddam Library System composed of the Rathbun Free Memorial Library and the East Haddam Free Public Library. The ordinance passed with a unanimous vote, permitting the libraries to work together to serve the needs of the community.

Going forward, the libraries will now have more resources with no additional cost. The libraries will be able to offer an increased level of services to the town – including programs, books, movies, technology, and even operating hours. By sharing resources and working together, the libraries can only get better. It’s an exciting time to have a library card in East Haddam.

EHFPL’s 2012-2013 highlights include:

- Integration with State Library ReQuest catalog providing patrons with access to library materials from all over Connecticut.
- Borrowed 981 materials through inter-library loan, 4% of EHFPL’s circulation.
- Provided and maintained seven internet-ready PCs with Windows 7/8 and the latest Microsoft Office Software.
- Circulated a total of 21,199* items (*please note: most EHFPL items circulate for 3-weeks).
- Worked closely with local businesses and organizations such as the East Haddam Lions, East Haddam Leos, Youth and Family Services, East Haddam School District and many more.
- Organized the Christmas/Family Night on Moodus Green event (thanks to the PTO and Public Works for doing an amazing job decorating!)

Rathbun 2012-2013 highlights include:

- Continued membership in LION library consortium granted access to 1.9 million materials to Rathbun Patrons.
- LION Consortium provided 2,328 titles to patrons which accounted for 9% of the Rathbun’s circulation.
- LION maintained 5 internet-ready PCs for public use.
- Circulated a total 27,245 items (*please note: most Rathbun items circulate for 2-weeks).
- Worked closely with numerous local businesses and organizations including the Community Lions, East Haddam Historical Society, Goodspeed Opera House, and more.

Highlights from both Libraries include:

- Free Wi-Fi for wireless internet devices.
- Patrons made use of the photocopiers, printers and fax machines for a nominal fee.
- Worked toward creation of town library system by shared library director.

Lower Connecticut River Valley Council of Governments (“River COG”) is a new regional organization created by the merger of the nine towns of the Connecticut River Estuary Regional Planning Agency and the eight towns of the Midstate Regional Planning Agency. The formal transition to a single organization began in May 2012, and was completed by October 31, 2012. The Council of Governments assumed the responsibilities and programs of the former agencies, and the two regional planning agencies ceased to exist. This River COG merger is the first significant change in regional boundaries within the State since regions were originally defined in the 1950s. The new COG meets monthly on the fourth Wednesday of each month at the COG office at 9 a.m. All meetings are open to the public.

The merger was accomplished through the process established by State Statute. River COG now consisting of 17 member towns, received incentive funds from the State Office of Policy and Management, to help offset the costs of the merger. A major advantage of merging the two agencies is a statutory provision that allows regions who voluntarily consolidate to retain their new boundaries as other regions of the state are redrawn. Member towns reasoned that the towns of this region have a generally non-urbanized character that would be lost if the regions were absorbed by the surrounding urban areas of New Haven, Hartford, and New London/Groton. Middletown is a modest sized college town that serves as our urban service center.

Staff persons from the two previous agencies who chose not to retire were incorporated into the new COG. Current staff is comprised of 9 professional planning staff, a financial administrator, and an office manager. Additional office space was required, and a search yielded a new headquarters at 145 Dennison Road in the Centerbrook portion of Essex, near Exit 3 off Route 9. We are renting a stand-alone 1787 historic house with modern additions, giving us space for future growth if necessary. Bringing together a combined staff, combined budget, financial resources and programs has been a great adventure. The physical adjustments are complete and the programmatic elements are being sorted out according to staff expertise.

Along with the new governing board of the COG, which consists of the chief elected officials of each of the towns, a new regional transportation planning board, the Lower Connecticut River Valley Metropolitan Planning Organization (LCRVMPO) was established. The LCRVMPO includes the members of the COG board and representatives of the Estuary Transit District, the Middletown Area Transit District, and the Middlesex Chamber of Commerce. The responsibility of the LCRVMPO is to enact and foster the planning requirements of the U.S. Department of Transportation. This is a complex process which involves public outreach, long range planning for transportation improvements in the region, and coordination with local, regional, state, and federal agencies to promote a safest, accessible, and efficient transportation system. The LCRVMPO meets at 9 a.m. on the 4th Wednesday of the month prior to the River COG meeting.

In addition to the MPO, River COG established a new Regional Planning Commission (RPC). The RPC includes a representative and alternate from each Municipal Planning Commission in the region. The task of the RPC is to comment on the inter-municipal impact of specific development applications. In addition, the RPC has embarked on the preparation of a new Regional Plan of Conservation and Development with the help of additional merger funding from OPM. The RPC meets monthly on the fourth Monday of each month.

Major program areas for the COG are transportation, emergency management, environmental protection, regional land use and waterways, agriculture and community resources, waste management, and shared services. In addition, the COG is working on a grant from OPM to update and standardize parcel maps in each town and create a regional digital parcel map. A second component of that grant is the collection of economic data to identify our economic resources, with particular emphasis on small and home based businesses and recreational and tourism assets, in preparation for developing a regional economic strategy.

We provide local technical assistance and advice on land use and other matters. The COG enjoys its role connecting towns and the public with information that can be helpful to them. Ongoing activities from the previous agencies include the updating of natural hazard mitigation plans and operation of a household hazardous waste collection center. The COG continues to provide staff and administrative services to the Gateway Commission. We sponsor quarterly workshops with local land use staff to share ideas and concerns about special local and regional projects, land use and zoning. The COG also functions as fiduciary for one of the five State’s Homeland Security Regions. The COG organized and hosts a regional land trust exchange for land trust leaders within the region. A regional Agriculture Council has recently been established to share information on agricultural activities in the 17 towns.

Current officers for the River COG are Cathy Iino (Killingworth), serving as Chairperson, Dick Smith (Deep River) as Vice-Chairperson, Susan Bransfield (Portland) as Secretary, and Ed Meehan (Chester) as Treasurer. The Executive Director is Linda Krause.

We welcome visitors and inquiries about specific topics of regional concern. Please contact us if you don’t know where to turn for land use, environmental, transportation or other related issues. Call (860-581-8554) or e-mail us (info@RiverCOG.org) if you think we might be able to help you.
At a Town Meeting on June 25, 1998, residents of East Haddam, interested in protecting East Haddam's rural character and retaining our quality of life, voted to enact an Open Space Trust Fund ordinance to set aside funds to help acquire important, agricultural lands and natural resource areas. The ordinance established a commission to review, select, prioritize, and protect these lands.

On January 6, 2003, the town of East Haddam, through a referendum vote (778 to 135), approved a $5 million dollar bond authorization to be used to purchase land or conservation easements on key parcels of land.

On April 9, 2013, the residents of the town of East Haddam approved the acquisition of the Zeiller and Pages parcels. State grants and other contributions totaled over 50% of the cost of the purchase.

The Planning and Zoning Commission is charged with recommending and regulating the most desirable use of land within the town. Zoning regulations are in place to provide guidance for residential, recreational, commercial, industrial, and conservation land use.

The Commission also makes recommendations regarding the infrastructure system of the town, including principal roads and bridges, and general location and improvements concerning parks, public buildings, playgrounds and other public structures. All subdivision of land must be approved by the Commission and new businesses are reviewed through the special exception process and site plan review.

The Commission is guided by the Connecticut General Statutes, town zoning regulations, and will refer to the Plan of Conservation and Development when applicable. These regulations were developed to encourage the most appropriate use of the land in accordance with the comprehensive zoning plan, their purpose is to lessen congestion in the streets; to secure safety from fire, panic, flood and other dangers; to promote health and the general welfare, to provide adequate light and air, to prevent the overcrowding of land, to avoid undue concentration of population, and to facilitate the adequate provisions for transportation, water, sewerage, schools, parks and other public requirements. They were enacted and are continually amended with reasonable consideration as to character of the district and its peculiar suitability for particular uses with a view to conserving property values, and encouraging the most appropriate use of land throughout East Haddam.

Zoning regulations are enacted with reasonable consideration for the protection of historic factors and for the protection of existing and potential public surface and ground drinking water supplies and proper provisions for sedimentation and erosion control. The regulations also encourage energy-efficient patterns of development, the use of solar and other renewable forms of energy, and energy conservation.

During the fiscal year 2012-2013 the Planning and Zoning Commission processed 4 subdivision applications, 3 were approved, creating 5 new building lots. The Commission also approved 14 Special Exception/Site Plan applications, 2 lot line revisions, and 97 zoning permits, including 8 single family dwellings.

The Planning and Zoning Commission meets the second and fourth Tuesday of each month in the Town Grange at 7:15 p.m., with the exception of holidays.

PUBLIC WORKS

Fiscal year 2013 was an eventful year for the Public Works Department thanks to Storm Sandy and Blizzard Charlotte. Storm Sandy resulted in significant tree damage; for months the highway department went street by street clearing debris and pruning/removing damaged trees. Blizzard Charlotte dumped approximately 36 inches of snow across the town leaving many residents stranded in their driveways. The highway department along with subcontractors worked for days to dig out from this record breaking snow event.

The Transfer Station continues to serve the public in an orderly and efficient manner. The total combined tonnage of municipal solid waste and bulky waste handled at the Transfer Station totaled 4,042 tons. This is a 2.1% decrease from fiscal year 2012. Recycling tonnage for the year totaled 940 tons. This is a 4.0% increase from last year. With the continued effort of every resident the town can continue to increase recycling and save the town in disposal fees.

The following is an overview of some of the work accomplished by the Highway Department during the year:

- Falls Bashan Road and Mott Lane were fully reclaimed, graded and paved with three inches of hot mix asphalt.
- This was the fifth year the town crew placed asphalt to shim and repair roads instead of chip sealing. More than 4,000 tons of hot mix asphalt was applied during the months of July/August/September 2012 and June 2013. Roads receiving this treatment included sections of Elaine Drive, Deer Run, Old Kentwood Road, Bashan Road, Orchard Road, Honey Hill Road, Cold Spring Road, Geoffrey Road, Creek Row, Landing Hill Road, Foxtown Cemetery Road, Foxtown Road and Essex Turnpike.
- A Moberg hand fed, drum style wood chipper was purchased to improve overall efficiency of department.
- One new truck was obtained to replace aging equipment.
- Annual maintenance of 119 miles of town roads was completed in accordance with a schedule of regular work. This program includes sweeping, line painting, mowing, street sign replacement, grading of more than 15 miles of unpaved roads, pothole patching and cleaning of approximately 1,700 catch basins.
- We also continue to assist other departments throughout the year including the Board of Education, Parks and Recreation, Agriculture Commission and the East Haddam Land Trust. The Public Works Department designed and installed the Heritage Park walking path at the Senior Center. The 0.29 mile track and outdoor fitness equipment has been a huge success and is greatly utilized by the residents.

Overall, the winter of 2012-2013 was above average in terms of snowfall, resources committed and number of storms. There were 18 winter storm events during the year. The first storm occurred on November 7, 2012 and the final storm occurred on March 18, 2013. Total snowfall for the year was approximately 71 inches. In spite of Mother Nature the highway department responded to the unprecedented effects of Blizzard Charlotte in a highly responsive manner to keep the roads safe and passable.

I would like to thank the Public Works Staff for their continued commitment, proficiency and dependability in maintaining and improving our infrastructure. A special thank you this year for all the efforts related to Storm Sandy and Blizzard Charlotte. We look forward to continuing to work with and serve the residents.

RESIDENT STATE TROOPER/
EAST HADDAM POLICE

2012-2013 brought many changes to the East Haddam Police/Resident Troopers Office. For the first time the town hired two full-time East Haddam Police Officers. Karl Karabeinikoff and Jeff Rhoades filled the two open positions. Officer Karabeinikoff has worked for the department as a part-time officer for many years and Officer Rhoades was the East Haddam Resident Trooper since 2008. Officer Rhoades accepted the position after retiring from the CT State Police in May of 2013.

Additionally, with the hiring of the two full-time town officers, East Haddam Residents voted to reduce from two Resident Troopers to one. Trooper Ian Hawes remains the East Haddam Resident Trooper but has been temporarily reassigned by the State Police. Until he returns, Trooper Erin Lowney has been assigned to East Haddam as the Resident Trooper. Trooper Lowney has worked out of Troop K for several years and is very familiar with the East Haddam area.

In addition to providing routine police coverage, the local East Haddam Officers provide marine patrols during the summer months, provide coverage for school events, parades, and other functions at the request of local residents and civic organizations. Additionally, our office sponsored the 18th annual Project Halloween, 7th annual Toy Drive and completed several child car seat inspections for residents.

East Haddam Officers / Resident Trooper continue to partner with East Haddam Youth and Family Services to better our community for our youth. East Haddam Officers also serve as members of the Local Prevention Council and the local Juvenile Review Board.

SENIOR SERVICES

The senior center continues to help fill the needs of our senior community. During the last year there were over 11,000 sign-ins at the center. The medical car made over 200 trips for doctor visits and the bus made weekly trips for shopping, the food bank and a variety of recreational trips. Other services provided at the center include tax preparation, Medicare counseling, fuel assistance and computer training. The center hosted various dinners, parties, and recreation programs. Meals on wheels were delivered to homebound residents and lunches were available at the center Monday thru Friday. A new walking trail was built on the field outside the center for all residents to enjoy. Many thanks to all the volunteers that help make the varied services to our senior community possible.

Senior Services Director

SHARED SERVICES

The town and the Board of Education have embarked on a Shared Services initiative in the areas of finance, facilities and technology. - Transitioned to a shared Finance Director for the town and Board of Education.
- Hired a Facilities, Operations and Emergency Management Director to oversee all town and school building facilities and operations.
- Realized savings in the areas of liability, auto and property and workers’ compensation insurance; copier contracts and more.
- Combined technology services for the town and Board of Education, eliminating paid contractors for the town.

The Shared Services Department looks forward to working cooperatively with the town and Board of Education to realize savings and to be better stewards of the town’s assets.

WATER POLLUTION CONTROL AUTHORITY

The East Haddam Water Pollution Control Authority serves the community in four main capacities. One is the oversight of the operation and maintenance of the East Haddam Village sewer treatment plant and collection system. The 2012-2013 fiscal year was the thirteenth year of full operations of the town’s sewer collection and treatment system. The flows averaged 14,000 gallons per day; which is just over 25% of system capacity. Peak daily flows reached as high as 37,000 gallons per day or 67% of the system’s capacity. Over 96% of the pollutants are typically removed. Sludge is taken to Cromwell for disposal.

The second function is to review septic systems for large facilities that produce flows of over 5,000 gallons per day. It is the Authority’s charge to ensure proper measures are in place for the continued proper operation and maintenance of these facilities.

The third is to work in conjunction with the other Commissions and Boards to review plans and proposals along with analyzing existing systems for their impact on East Haddam’s natural resources. The Commission has endorsed a sewer avoidance program that is consistent with the Plan of Conservation and Development. Sewer avoidance programs have been considered a useful and necessary tool to avoid urban sprawl inconsistent with historical or desired development patterns. The Authority concluded that sewer avoidance is appropriate as a policy for the entire town, but in particular, the many important ecological and recreational water resources areas including the Salmon, Eight Mile and Connecticut Rivers, Lake Hayward, Bashan Lake, Moodus Reservoir, and Pickerel Lake.

The fourth duty of the Authority is its membership in the Southeastern Connecticut Water Utility Coordinating Committee process. This Committee’s charge, as designated by Connecticut Public Act 85-535, is to insure a safe and adequate supply of water for all residents and to develop plans that meet the community’s needs. The town of East Haddam has been awarded with an Exclusive Service Area Declaration. The Authority will oversee the development of a water supply plan that covers the next fifty years.

On July 12, 2012 the East Haddam Water Pollution Control Authority revised the sewer use and operation fees and adopted the Sewer Use and Pollution Control Regulations.

The Authority meets on the first Tuesday of alternating months at the Town Office Annex at 7:00 p.m.

as set forth below:

q) Except as otherwise specifically defined, the words
"agriculture" and "farming" shall include cultivation of
