

Financial Assistance

Growing businesses need capital, and no state realizes and responds to that need better than Connecticut. Whether the financing requirement is an equity investment, capital purchase or working capital, there is a multitude of financing programs available to support businesses large and small.

State programs include direct funding from the Department of Economic and Community Development (DECD), Connecticut Development Authority (CDA) and Connecticut Innovations (CI). In addition, there is a network of local and regional revolving loan funds across the state to assist businesses with financing needs.

DECD Direct Assistance

DECD offers direct financial assistance in the form of low-interest loans under its Economic Development and Manufacturing Assistance Act (MAA). MAA also provides incentive driven direct loans for projects when there is a strong economic development potential. Funding may be used for purchase of equipment, furniture and fixtures, construction, leasehold improvements, training and other eligible project-related activities.

www.decd.org

Connecticut Development Authority (CDA)

CDA provides direct loans, loan guarantees and junior participations in conjunction with bank lending for business development projects in Connecticut. CDA also administers a sales and use tax exemption program that allows CDA to act as a conduit for sales and use tax exemption for a portion of a company's anticipated qualifying capital equipment and/or construction materials for eligible projects.
