

# Town of Seymour

## Snow Removal Ordinances

### **What does the law say?**

Property owners must clear their sidewalk within 24 hours of the end of a storm. If the storm ceases in the night, then it must be cleared before noon on the succeeding day. (14-6) Snow or ice from sidewalks and driveways may not be deposited in the roadway. (14-9) If you do not comply, you may be fined up to \$100 a day until the situation is remedied. (1-9)

### **Why does it matter?**

Not everyone in the community drives, some people need to walk. School children on their way to and from their bus stops, for example, need to use the sidewalks and may put themselves in danger by walking in the street if they are not properly cleared.

### **Remember:**

- All roadside sidewalks need to be cleared
- The path must be wide enough for 2 people to pass at once
- All ramps and curb cuts must also be cleared
- Please shovel out fire hydrants and storm drains in your neighborhood
- Clear paths from emergency exits

Please contact the Office of the First Selectman with any questions or concerns, (203) 888-2511.
