Questions & Answers

**NOTE: Text of questions are directly copied from emails received without editing.**

**Question:** The only question I have at this time is with regards to the Main Street intersection with Humar Street. The Meijer traffic report recommends coordination of the traffic signals along Main Street between Paradise Drive and Humar Street. Will the future Humar Street traffic signal be considered part of the Main Street system and if so, should this intersection be included in the project analysis and timing plans?

**Answer:** Yes, the future Humar Street traffic signal will be considered part of the Main Street system. However, this signal won’t be operational until the store opens. Meijer representatives have indicated that their target opening date is April 3, 2017. So, it appears there won’t be live data to be collected at this time for the Humar intersection, but the City will provide its timing plan for the Consultant to review the coordination and propose changes if necessary.

**Question:** Do meetings of the City of West Bend Safety Commission occur on a regular schedule, or are they scheduled on an as needed basis?

**Answer:** They are scheduled on an as needed basis.

END.

THIS CONCLUDES ALL QUESTIONS AND ANSWERS AS OF 12:00 P.M. ON FRIDAY, FEBRUARY 10, 2017, PER QUOTE Q17-02 SPECIFICATIONS.
