DOG PARK ETIQUETTE FOR DOG OWNERS & VISITORS

Once you and your dog enter the dog park, it's tempting to just stand back and watch all the activity. But everybody will have a much more rewarding time, if you observe some basic rules. Please remember that dog parks aren't a right, they're a privilege – don't let the bad behavior of a few ruin things for everyone else who utilizes the Park, both now and in the future.

- Always keep your eye on your dog. Mischief can happen quickly. Please remember that you are responsible for your dog's actions & behavior!
- Never leave your dog unattended. Always be aware of what is going on in the Park around you.
- Always clean up after your dog. "Pooper Scooper" bags have been provided - please utilize them as may be required. This is the primary reason that dog parks get complaints nationwide, so please pay close attention to your dog and properly **pick up & dispose of their waste** before leaving the facility.
- Please make sure your dog is current on all immunizations including but not limited to Rabies vaccinations and has a valid municipal dog license.
- Don't bring dogs younger than six (6) months old to the dog park. They have not had all of the necessary inoculations that allow them to play safely with other animals in the Park.
- Don't bring a female dog in season into the Park. Spayed/neutered animals are recommended.
- Don't bring more than two (2) dogs at a time to the Park. More than two (2) will subject the Park to overuse and you will have a more difficult time monitoring your dogs as they play throughout the Park.
- Keep your dog on-leash until you get to the designated off-leash areas. This is not just respectful to other park users; it's much safer for you and your dog.
- If your dog becomes unruly or plays too roughly, please leash them and leave the Park immediately, until such time that your dog is back under control and has settled down.
- If you must bring children eighteen (18) years or younger, please be sure to supervise them closely. They are not permitted to run around the Park unsupervised.
- Please do not smoke or eat while in the Park. Cigarette butts and food wrappers are tempting treats to visiting dogs, local wildlife and insects.
- Bringing unregistered **dogs** to the Park is strictly **prohibited** and may subject you to both the loss of your pass and possible fine.
- Please remember that if you permit an unregistered dog to enter the Park under your pass, you have now accepted full responsibility and liability for that dog's actions.
- A maximum of three (3) dogs are permitted in the Dog Run area at one time.

How to Enter & Exit the Dog Park

The Cape May County/Ocean City Dog Park is divided into three (3) separate fenced-in areas, providing maximum safety for your dog. When entering & exiting the designated areas please remember to close the gates securely behind you & your dog. Open or tied back gates defeat the purpose of the security provided by the fenced-in areas. Please note that the outer gates are electronic and the use of the access swipe card will be required for both **entering & exiting** these areas.

You enter and exit each of the areas through the double-gated vestibules. The vestibules are designed with two (2) gates to provide maximum control over your dog and other dogs as you enter and leave the fenced-in areas. If someone is ahead of you, please wait your turn before entering this area. **Please note that an access pass is required to both Enter & Exit the park.** The gates have magnetic locks that will secure the gate in a locked position once you have passed through. If you become locked in the park, seek help from either another member of the park or call (609) 399-9111 and ask the Police Department for assistance.

Opening only one gate at a time makes the vestibules a kind of "dog lock", sort of like an airlock on a spacecraft. After closing the outer gate, you should remove your dog's leash and remain in the vestibule while you observe the behavior of dogs already in the off-leash area. If the behavior is friendly, carefully open the inner gate and enter; if your dog's behavior is unfriendly, put the leash back on your dog and go to the vestibule of another area that might be less congested.

(Updated: 5/8/19)

DOG PARK ETIQUETTE FOR DOG OWNERS & VISITORS (CONTINUED)

The dog park fencing contains two (2) service gates located at the rear of the park. These gates provide access for the City's maintenance and landscape crews. They are **not** intended for use by park members and are to be kept locked unless in use by authorized personnel. If you find an unlocked maintenance gate, **Please notify the City as soon as possible @ (609) 399-6111 during normal business hours (Monday – Friday, 9:00 AM – 4:30 PM, legal holidays excluded)**. Please don't enter the fenced-in or the off-leash areas through the rear service/emergency gates. These gates do not provide the control that you need to have over the dogs while entering or exiting the park. Additionally, dogs already in the off-leash area, including dogs that might be unfriendly toward your dog, might escape as you enter the park through these unauthorized service gates.

Additional Information on How to Enter the Dog Park

- Before opening the outer gate, please check to be sure that the inner gate is properly closed and that no other dogs are in this area.
- Open the outer gate with your swipe access card ('Paw Pass') and enter the vestibule with your dog on-leash.
- Close the outer main gate behind you and be sure that it is properly secured.
- Remove your dog's leash. Having your dog on a leash when confronting an off-leash dog can be a recipe for trouble - your dog may feel vulnerable and fearful, as well as the need to protect you. Tugging on the leash puts your dog at a disadvantage with other dogs. It is restrained but placed in a chest-out, raised-up aggressive pose that can cause the off-leash dog to feel threatened by the overall situation.
- Before you open the inner gate, check to be sure that the inner gate area is not congested with excited dogs waiting to pounce on your pup or trying to get out as you enter.
- Pay close attention to the receptions from the dogs already inside the park area – is it favorable or not? If the dogs already inside aren't friendly, put the leash back on your dog and go to the vestibule of another area that may be open or not as congested at that time.
- Open the inner gate. Enter the off-leash area with your dog.
- Close the inner gate properly behind you and move your dog away from the entrance area.

Additional Information on How to Exit the Dog Park

- Before you open the inner gate, please check to be sure that the outer gate is properly closed and that any other dogs aren't trying to leave with you.
- Open the inner gate and enter the vestibule with your dog.
- Close the inner gate properly behind you and ensure that the latch is in the downward position.
- Put the leash securely on your dog.
- Open the outer gate with your swipe card and exit from the vestibule with your dog. Please note that you must utilize your swipe card to exit the Park. Unfortunately, some individuals have been locked in the Park due to fact that another individual permitted them access and had already exited the facility. If you become locked in the Park, seek help from either another member in the Park or call (609) 399-9111 and ask the Police Department for assistance.
- Close the outer gate behind you and please be sure that it is properly secured. The latch is electronic and should lock on its own, once it has been closed.

Q - How is the Park structured & setup for use?

A - As designed by the Cape May County Engineer, the park is broken down into three (3) distinctly separate fenced in areas. They are as follows:

- Large Dog Area
- Small Dog Area
- Dog Run Area

Additionally, there are three (3) separate entrance/exit areas. This provides a safe area for you to remove or put on your leash before entering and/or leaving the park. When registering your dog, you will be given access to all areas in the Park.

Currently, all dogs are permitted in all areas of the park. Owners are cautioned that they should utilize good judgment in determining which area is most appropriate for their dog. While signage has been posted differentiating the large & small dog areas, owners are once again cautioned to select the area that best meets their dog's needs. It is our recommendation that each owner should thoroughly evaluate the sizes and breeds of the dogs that are in a specific area and make a judgment call as to which area will best meet their needs on that given day.

Q - What facilities are available at the Park for both the owners & the dogs?

A - As described above, there are three (3) separate fenced-in areas for the dogs to run off-leash. Additionally, the following facilities are currently available:

- Shared covered pavilions with a picnic table in each of the two (2) main areas
- Water fountains for both the dogs & owners
- Hose bibs & hoses (seasonally)
- "Pooper-Scooper" dispensers & disposable bags
- Trash & recycling waste containers
- Sitting benches located throughout the Park
- Designated handicap parking area
- Designated off-street parking lot
- Information sign boards in the two (2) main areas
- Interactive items in the main park areas
- Electronic locking security access gates
- Port-a-Potty (handicap accessible)

Q - Are there any future plans to add additional interactive items to the Park?

A - Yes, there are continued plans to replace and add additional interactive items to the site. Through the receipt of both Park user fees and annual donations, it is the City's plan to add to the site in the coming years. At this point, we have been provided an excellent base from the County which we will continue to build on and will be working to further improve the Park as time goes on. If you wish to make a donation to this endeavor, please go to the City's webpage for additional information and details.

Q – Are the “Paw-Passes” transferable between different dog owners?

A – **No**, passes are **not transferable** between owners! Each dog must be registered and each owner is required to complete the “Paw-Pass Application Form” and to sign the “Acceptance of Risk & Release of Liability Waiver Form”. Additionally, by signing the Release & Risk of Liability Waiver Form, each applicant is assuming the risk and liability for the dogs that they have registered. By allowing other dogs to enter the Park with your pass, you have now assumed full liability for those dogs and have breached our contractual agreement for use of the Park. Further, we have tried diligently to ensure that every dog utilizing the Park has been properly vaccinated and has passed an initial screening process. Your failure to adhere to these basic rules could jeopardize your ability to utilize the Park in the future, as well as the Park itself.
