

## WARRANTY CERTIFICATE

Pajarito Scientific Corporation doing business as Radiation Protection Systems (RPS/PSC) warrants that the supplies delivered hereunder will be free from defects in workmanship and materials. Subject to the limitations set forth below, RPS/PSC agrees to replace or correct, within a reasonable timeframe and without expense to the Buyer, any supplies not conforming to the foregoing requirements when notified by the Buyer thereof during a period of 12 months after delivery, provided that if the supplies have become radiologically, biologically, or chemically contaminated, the Buyer will perform, at its own expense, any decontamination which may reasonably be required by RPS/PSC to render the item(s) non-hazardous so that repair or replacement can be affected. In no event will contaminated items be shipped back to RPS/PSC. All returns must be authorized by RPS/PSC prior to shipment back to RPS/PSC.

This warranty excludes consumable parts such as filter elements, bulbs, fuses, etc.

Failure of the Buyer to properly complete all installation requirements, system test requirements, and maintenance procedures as required by RPS/PSC via technical, operational, or maintenance manuals shall release RPS/PSC from all of its obligations as herein provided.

The foregoing warranties are exclusive and in lieu of all other warranties, whether expressed or implied, including any warranty of merchantability of fitness for a particular purpose. Failure of the Buyer to promptly notify RPS/PSC of any such non-conformity shall release RPS/PSC from all of its obligations as herein provided. Further, any repairs or alterations to the equipment by the Buyer not authorized by RPS/PSC in advance shall release RPS/PSC from its warranty obligations. Any damage resulting from abnormal use, misuse, abuse, or normal wear-and-tear are not covered under this warranty and shall be the responsibility of the Buyer.

This warranty applies only to the extent that any equipment or process furnished hereunder is in accordance with Seller's goods regularly sold and not (a) supplied according to Buyer's design or instructions, (b) modified to meet particular needs of Buyer, or (c) combined by Buyer with items not furnished hereunder where such design, instruction, modification, or combination is responsible for the warranty claim.

The foregoing states the entire liability of Seller with respect to warranty.
